We offer high quality of Coleus Extract from our world class facility. Our herbal extracts are highly appreciated by our patrons across the country for their purity, safe to use and economical price.

## Geographical Distribution

India is considered as a hot spot region for the plant diversity and about one fifth of the Indian plants are found to have medicinal properties. Coleus is a member of the mint family and native to India and grows in the subtropical temperate climates of India, Nepal, Thailand and Sri Lanka. It is a popular ornamental plant used as a sedative in Africa, Arabia, and Brazil. In India, the major medicinal Coleus plant species are the tuberous *C. forskohlii*, *C. amboinicus*, *C. blumei*, and *C. malabaricus* used for weight management and cosmetics

## Bioactive Compound

In modern medicine, *C. forskohlii* gained an importance after the emergence of the therapeutic properties of the Forskololn (FSK, 3) (7-β-acetoxy-8, 13-epoxy-1α, 6 β, 9α-trihydroxy-labd-14-ene-11-one). The root extract of *C. forskohlii*, Forskololn is the major compound having high therapeutic value.

# COLEUS FORSKOHLII

## Creation of Nature

### Specifications

Common name  
**Coleus**

Botanical name  
***Coleus forskohlii***

Plant part use  
**Root**

Appearance  
**Reddish brown coloured powder**

Storage condition  
**Cool & dark place**

Method of Extraction  
**Solvent Extraction**

Method of Analysis  
**By HPLC**
